ABOUT

Front End developer with **2 years** of commercial experience, working in teams ranging from 1 to 8 members. **Participated in** the **full cycle of** front-end **development**: from communicating with the clients to define user needs and design specs to implementing optimized, interactive UIs with a reusable component system, fast load times, and automated testing workflows. **Enhanced** web **performance** by accelerating page speeds, improving SEO indicators, refining UX, and establishing modular, reusable component system.

In addition to core front-end knowledge, **implemented testing solutions** using Jest to ensure high-quality, reliable codebases. **Passionate** about expanding skills into **back-end** development and actively explore these topics in my spare time.

SKILLS

Front-End: Vue.js 2&3, Nuxt.js 2&3, JavaScript, ES6+, Typescript, HTML, CSS, SASS, SCSS, BEM, RWD, Tailwind CSS, Vuetify, Quasar, Vue Router, Vuex, Pinia, Vuelidate, VueUse
Back-End: Node.js, Nest.js, PHP, REST API, GraphQL, Swagger
Testing: Jest
Other: Eslint, Prettier, Webpack, Vite, Git, OOP, FP, SOLID, DRY, Figma

EXPERIENCE

Panda Team: 09/2024 - PRESENT, 6+ MONTHS
